PASTIGLIE FRENO SPORT

SPORT BRAKE PADS | PLAQUETTES DE FREIN SPORT | SPORT BREMSBELÄGE | PASTILLAS DE FRENO DEPORTIVAS

SPORT Organico

BKS

Specifica per un uso cittadino; la miscela che equipaggia queste pastiglie, nasce da uno studio delle sollecitazioni nell'utilizzo urbano. Come è noto, in tali condizioni, i freni vengono particolarmente stressati dalle continue e ripetute sollecitazioni. Si raggiungono così alte temperature con conseguente consumo precoce o vetrificazione. La miscela BKS a base organica, garantisce affidabilità e prestazioni in tali condizioni.

BKS

These are designed for city-centre riders. The compound selected will withstand frequent stop-and-start use, which is particularly tough on brake pads. High temperatures are quickly reached and maintained, leading to rapid wear and even glazing of the pad surface. BKS pads are organically based, provides sustained performance in these conditions.

BKS

Mélange Organique renforcé Kevlar étudié spécifiquement pour un usage routier, le mélange de ces plaquettes, est née d'une étude des stress, des contraintes intensives générées en particulier par l'utilisation et les sollicitations urbaine. Les plaquettes organiques BKS garantisse excellentes performances et fiabilité.

BKS

Spezifisch für die Stadt. Die Mischung dieser Bremsbeläge stammt aus einer Untersuchung der Belastungen bei Stadtanwendung. Es ist bekannt, dass unter diesen Bedingungen die Bremsen von den wiederholten und ständigen Beanspruchungen besonders überfordert werden. Hohe Temperaturen werden erreicht, was der frühzeitige Verschleiß bzw. das Verglasen der Beläge als Folge hat. Die BKS-Mischung ist organischer Art zur Sicherstellung der Zuverlässigkeit und der Leistungen unter diesen Bedingungen.

BKS

Especifica para el uso en ciudad; la mezcla que monta esta pastilla, nace del estudio de las necesidades del usuario urbano. Como es normal, en tal uso los frenos estan particularmente estresados de forma continua. Se alcanzan altas temperaturas, y por tanto un consumo precoz y la cristalización. La mezcla Bks con base organica, garantiza la fiabilidad y altas prestaciones en dichas condiciones de uso.

SPORT CARBON Sinterizzato

SCS

Disponibili per scooter, maxi scooter, moto stradali e fuoristrada, rappresentano il punto di ingresso nella gamma sinterizzata Newfren. Frenata modulabile, prestazioni costanti e affidabili per uso quotidiano e sportivo. Buon coefficiente d'attrito anche a basse temperature, offre un buon compromesso fra prestazioni e usura rispetto ai materiali organici.

SCS

These are the entry-level sintered pads from Newfren. We have them for popular scooters and maxi-scooters, plus street and dirt bikes. They provide very controlled braking, with predictable and reliable performance for urban or fast highway applications. They have a high coefficient of friction, yet offer a good compromise between performance and durability when compared to organic materials.

SCS

Disponibles pour scooter, maxi scooter, routières, plus tout terrains, elles sont l'entrée de gamme métal fritté Newfren. La freinage est progressif, les performances sont constantes et fiables elles sont bien adaptées a un usage quotidien et routier. Bon coefficient de friction à basse température, elles offrent un bon compromis entre performances et usure par rapport au mélange organique.

SCS

Erhöhtlich für Motorroller, Maxi-Scooter, Straßen- und Geländemotorräder stellen diese Bremsbeläge den Einstieg in die Sinter-Produktpalette Newfren dar. Dosierbarkeit, andauernde und zuverlässige Leistungen für täglichen und sportlichen Einsatz. Guter Reibungskoeffizient auch bei niedrigen Temperaturen. Diese Bremsbeläge bieten einen guten Kompromiss zwischen Leistungen und Verschleiß im Vergleich zu organischer Werkstoffen.

SCS

Disponible para scooter, maxi scooter, carretera y off road, representando el punto de entrada en la gama sinterizada de NEWFREN. Frenada modulable, prestaciones constantes y fiables en el uso cotidiano y deportivo. Buen coeficiente de fricción incluso en bajas temperaturas, ofrecen un buen comportamiento y desgaste con respecto a los materiales organicos.

PASTIGLIE E GANASCCE
BRAKE PADS AND SHOS | PLAQUETTES ET MACHOIRES | BREMSBELÄGE UND BREMSBACKEN | PASTILLAS Y ZAPATAS

PERFORMANCE Organico

BR

Prodotte con materiali organici di ultima generazione, sono adatte a moto di piccola e media cilindrata, così come ai maxi scooter. Elevata resistenza alle alte temperature abbinata ad una frenata potente e modulabile, si traducono in una maggiore sicurezza nel turismo sportivo. Trovano la loro applicazione ideale sulle moto stradali equipaggiate in origine con pastiglie non sinterizzate

BR

These are made from latest-generation organic materials, and are for use on small- and medium-capacity models, such as maxi-scooters. Their resistance to high temperatures and powerful yet controlled braking power provide enhanced safety in day-to-day street use. They are ideally suited to street bikes which are factory-fitted with non-sintered pads.

BR

Fabriquées avec des matériaux organiques de dernière génération, elles sont indiquées pour les motos de petite et moyenne cylindrée, comme pour les maxi-scooters. Bonne résistance a hautes températures combiné a un freinage puissant et progressif. Excellente efficacité en usage tourisme sport. Application idéale en remplacement pour les motos équipées d'origine avec des plaquettes non sinter.

BR

Aus organischen Werkstoffen letzter Generation sind diese Bremsbeläge angebracht für Zweiräder mit kleinem und mittlerem Hubraum sowie für Maxi-Scooter. Hohe Widerstandsfähigkeit gegen hohe Temperaturen zusammen mit einer kräftigen und modulierbaren Bremswirkung ergeben eine höhere Sicherheit bei Sportreisen. Ideal für Straßenmotorräder ursprünglich ausgerüstet mit Nichtsinter-Bremsbeläge.

BR

Producto con material orgánico de última generación, el uso es para motos de pequeña o media cilindrada, así como los maxiscooter. Elevada resistencia a la temperatura con una frenada potente y modulable que se traduce en una mayor seguridad en la moto touring y deportiva. Ideal para aquellas motos que originalmente no usan la tecnología sinterizada.

PERFORMANCE Sinterizzato

S2

Prodotte con una combinazione di materiali diversa a seconda del veicolo e del tipo d'uso. Nelle moto stradali, le pastiglie S2 soddisfano pienamente le esigenze nei percorsi turistici e sportivi, in particolar modo, montate sui modelli che in origine utilizzano la tecnologia sinterizzata. Nelle moto da fuoristrada, esprimono massime prestazioni in ogni condizione di terreno. Ottime per un uso agonistico.

S2

Made from compounds tailored to suit the models for which they are intended. S2 pads for street use are for both touring and track, and are ideal for models which have sintered pads as original equipment. Particularly suitable for dirt bikes, whatever the terrain. Great for competition riding

S2

Mélange de matériaux de synthèse Hautes Performances adaptées pour un usage intensif et exigeant. Les plaquettes S2 sont en particulier recommandées en remplacement des monte d'origine sinter. Elles sont aussi préconisées en usage tout terrain sportif et de compétition et sont parfaitement adaptées a tout type de terrain.

S2

Erstellt durch eine Zusammensetzung von unterschiedlichen Werkstoffen je nach Fahrzeug und Einsatzart. Bei den Straßenmotorräder erfüllen die Bremsbeläge S2 völlig die Ansprüche der Reise- und Sportstrecken besonders bei den Modellen, die ursprünglich die Sinter-technologie in Einsatz haben. Bei den Geländemotorräder äußern diese Beläge die Höchstleistung bei jeder Bodenbedingung. Optimal für Rennen-Einsatz.

S2

Producto con una mezcla de materiales diferentes dependiendo de la moto y del uso. Para las motos de carretera, la pastilla S2 satisfacen plenamente a las exigencias de los usuarios touring y deportivos, y en particular a todos los usuarios que usan originalmente la tecnología sinterizada. Para las motos off road, expresen al maximo las prestaciones en cualquier condicion del terreno. Perfectas para el uso en competicion.

PASTIGLIE FRENO RACING

RACING BRAKE PADS | PLAQUETTES DE FREIN RACING | RENNBREMSBELÄGE | PASTILLAS DE FRENO RACING

RACING Organico

B4R

Materiale d'attrito dalla composizione chimica innovativa: fibre di ceramica, resine speciali, carbonio. Alto coefficiente di attrito, maggior resistenza al Fade e miglior mordente (attacco iniziale). Ottima stabilità di livello di attrito durante la frenata. Bassa trasmissione di temperatura generata dalla frenata (rispetto ai materiali sinterizzati) e maggior costanza nella corsa della leva freno.

B4R

Innovative ceramic & carbon-based compound. Higher friction level, improved resistance to high temperature fade and increased pad bite (when brake first applied). More sustained braking performance. Lower brake operating temperature (compared to sintered compound) and less variation in lever travel.

B4R

Mélange avec une composition chimique innovante, fibre de céramique, résines spéciales, carbone. Plus de coefficient de friction, plus de résistance au Fading et meilleur mordant (attaque initial). Basse transmission de température générée par le freinage (par rapport aux matériaux sinter) et meilleure constance dans la course du levier de frein.

B4R

Reibungsmaterial mit einer chemischen Erneuerungszusammensetzung: Keramikfaser, Sonderharz, Kohlenstoff. Hoher Reibungskoeffizient, erheblichere Beständigkeit zu Fade und besserer Griff. Optimale Haltbarkeit des Reibungsgrads während des Bremsens. Niedrige Übertragung der Temperatur aus der Bremswirkung (im Vergleich zu Sintermetall) und höhere Beharrlichkeit in Bremshebelweg.

B4R

Material frenante de composicion quimica innovadora: fibra de ceramica, resina especial, carbono. Alto coeficiente de frenada, mayor resistencia al Fade y mejor "mordiente inicial". Optima estabilidad en el material frenante durante la frenada. Baja transmision de la temperatura generada por la frenada (con respecto al material sinterizado) y mayor constancia del recorrido de la maneta de freno.

RACING Sinterizzato

S4R

Mescola sinterizzata di tipo racing, studiata e utilizzata dai piloti nelle specialità Superbike, Superstock, Supersport e Supermoto. Resiste alle alte temperature nell'uso esasperato delle competizioni. Utilizzabile anche dall'utente non professionista che richiede il massimo delle prestazioni. Da utilizzarsi esclusivamente in accoppiata con dischi freno in acciaio.

S4R

The race-grade sintered compound used to make these pads has been developed and used by riders in Superbike, Superstock, Supersport and Supermoto. It works well even at the high temperatures achieved in circuit use. It is also suitable for use by enthusiasts who need maximum performance for track-days. To be used only with steel discs.

S4R

Mélange sinter type racing, étudié et utilisé par les pilotes dans le Superbike, Superstock, Supersport et Supermoto. Elle résiste aux hautes températures dans l'utilisation exaspéré des compétitions. Utilisable aussi par le consommateur de tous les jours à la recherche des performances. Elles doivent être utilisées exclusivement avec des disques de frein en acier.

S4R

Sintermetall-Rennen-Mischung entwickelt und angewendet von Piloten bei Superbike, Superstock, Supersport und Supermoto. Diese Bremsbeläge vertragen die hohen Temperaturen, die in Wettkämpfen entstehen. Auch Nicht-Profis, die Hochleistungen wünschen, können die verwenden. Ausschließlich zusammen mit Stahl-Bremsscheiben verwenden.

S4R

Mezcla sinterizada de uso racing, estudiada y usada por los pilotos de Superbike, Superstock, Supersport y Supermotard. Resistente a las altas temperaturas del mundo de la competicion. Utilizable por los usuarios no profesionales que exigen el maximo de las prestaciones. Solo se deben usar con discos de Acero.

GANASCE FRENO

BRAKE SHOES

Con oltre 650 modelli a catalogo, Newfren è riconosciuta a livello mondiale come punto di riferimento e pietra miliare del settore, in quanto copre interamente il mercato del ricambio delle ganasce. Tutti i modelli vengono rettificati singolarmente e controllati prima del confezionamento.

With more than 650 models on offer, Newfren enjoys world-wide recognition as a point of reference and key player in this market. We have brake shoes for almost every bike that needs them. Each one is individually machined and checked before being packaged.

MÂCHOIRES DE FREINS

Avec plus de 650 modèles différents offerts Newfren est reconnue pour avoir l'offre de qualité la plus large pour le 2 roues motorisé. Tout les modèles sont rectifiés et contrôlés avant le packaging.

BREMSBACKEN

Mit über 650 Modellen im Katalog ist die Fa. Newfren weltweit Bezugspunkt und Meilenstein des Bereichs, da der ganze Ersatzteilmarkt der Bremsbacken gedeckt wird. Sämtliche Modelle werden einzeln geschliffen und vor der Verpackung geprüft.

MORDAZAS DE FRENO

Con mas de 650 modelos en catalogo, Newfren esta reconocida a nivel mundial como referente en este sector, en cuanto cubre por entero el mercado de recambio de las mordazas. Todos los modelos vienen rectificadas individualmente y controlados antes de su confeccion.

STD STANDARD

GANASCE STANDARD

Affidabilità, sicurezza e usura contenuta sono il risultato dell'esperienza di oltre 50 anni che la Newfren può vantare. Perfettamente intercambiabili senza necessità di adattamenti al mozzo.

STANDARD SHOES

With 50 years of experience, Newfren is proud to offer reliability, safety and a slow rate of wear. Our shoes fit straight on, with no modifications required.

MÂCHOIRES STANDARD

Leur fiabilité, sécurité et longévité sont le résultat d'une expérience de plus de 50 ans dont Newfren est fier! Elles sont intégralement interchangeables sans nécessité de faire aucune adaptation au moyeu.

STANDARD-BREMSBACKEN

Zuverlässigkeit, Sicherheit und beschränkter Verschleiß ergeben sich aus der 50-jährigen Erfahrung der Fa. Newfren. Vollkommen austauschbar bedürfen die Bremsbacken keine Anpassungen an Nabe.

MORDAZAS STANDART

Fiabilidad, seguridad y consumo contenido es el resultado de la experiencia de mas de 50 años de Newfren. Perfectamente intercambiable sin tener que adaptarlo al Vehículo.

FTR ANTIACQUA

ANTIACQUA FTR

Le speciali scanalature del materiale d'attrito favoriscono la fuoriuscita di acqua e di eventuali altri sedimenti (terra, sabbia, etc.); queste fenditure sul ceppo consentono anche un maggiore e rapido raffreddamento del materiale d'attrito.

Studiate e brevettate negli anni '80, le ganasce freno FTR si rivolgevano particolarmente all'utilizzo del fuoristrada offrendo ottime prestazioni soprattutto in condizioni critiche. Ancora oggi apprezzate dagli appassionati di moto d'epoca.

WATERPROOF SHOES

The grooved friction material allows water and other materials such as sand or mud to be cleared at once from the surface of the shoe. As a bonus, these channels also help to cool the friction surface.

Our FTR shoes were devised and patented in the 1980s. They were particularly beneficial in off-road applications, when nothing else would do. They are still much appreciated by the classic bike fraternity.

MÂCHOIRES ANTI-EAU

Les rainures spéciales pratiquées sur la friction garantissent l'évacuation optimisée de l'eau et éventuellement du sable, boue, etc. Ces rainures sur la garniture favorisent aussi un refroidissement du matériel de friction plus rapide.

Conçues et brevètes dans les années '80, les mâchoires FTR sont parfaitement adaptées à l'usage off-road, elles offrent des prestations optimales en particulier sur des terrains et dans des conditions difficiles.

Aujourd'hui elles sont toujours appréciées et utilisées par les fans de moto d'époque.

WASSERSCHUTZ BREMSBACKE

Die Sonderrillen vom Reibungsmaterial begünstigen das Abfließen des Wassers sowie den Austritt etwaiger anderer Niederschläge (Erde, Sand, usw.). Diese Schlitze an der Backe ermöglichen auch ein höheres und schnelleres Abkühlen des Reibungsmaterials.

Entwickelt und patentiert in den 80er Jahren wandten sich die FTR-Bremsbacken besonders zum Offroad Einsatz und bieten optimale Leistungen besonders unter kritischen Verhältnissen. Heute sind die noch von den Liebhabern alter Motorräder geschätzt.

MORDAZA ANTIAGUA

La especial rayadura del material frenante favorecen la evacuación del agua y otros sedimentos (barro, arena, etc.), y además hacen que funcione como refrigeración del material frenante.

Estudiadas y patentadas en los años 80, las mordazas FTR se recomiendan para el uso Off-Road, ofreciendo unas prestaciones óptimas en condiciones extremas. Además hoy es un producto muy apreciado por los apasionados de motos clásicas.
